

## Familiarity and Awareness of Drugs

With regard to each of the following indicate for each one, whether the following apply:

	Never heard of it	Heard of it but know little about it	Know something about it	Know about most of its effects
(a) Marijuana	[ ]	[ ]	[ ]	[ ]
(b) Amphetamines	[ ]	[ ]	[ ]	[ ]
(c) LSD	[ ]	[ ]	[ ]	[ ]
(d) Crack	[ ]	[ ]	[ ]	[ ]
(e) Cocaine	[ ]	[ ]	[ ]	[ ]
(f) Norenal*	[ ]	[ ]	[ ]	[ ]
(g) Ecstasy	[ ]	[ ]	[ ]	[ ]
(h) Tranquillisers	[ ]	[ ]	[ ]	[ ]
(i) Sedatives	[ ]	[ ]	[ ]	[ ]

*Calculations of Indices: A simple count of the number of drugs of which respondent has heard will provide a rough indication of their familiarity with various substances. Overall sample means will show the level of awareness of particular drugs in the group being studied.*
